About This Game

The FULL version of Episode 1 is now complete in Early Access! Download today!

Become the master of a brand new, exciting agile third person mech shooter set on a dystopian Earth in the first episode of Beyond Flesh and Blood.

SPACE IS EASY. PREPARE FOR EARTH.

JOIN THE UGR. Beyond Flesh and Blood is the harsh shooter designed to push your skills to the limit.

Battle through this gory sci-fi, blast apart every enemy with powerful weapons – and unlock the frightening secrets of a 23rd century gone rogue...

- Gory violence: people being ripped in half, gibs and blood, explosions, fire, lasers...and loads more delicious gibs.

-
- Tough training: no easy gameplay and no cover-based shooting. Unearth your inner hardcore PC gamer...stop hiding and get shooting!
 - Detailed environments: Manchester is re-imagined as a dystopian UK city, making full use of the powerful Unreal engine
 - Progress is reigned in by the communications link between mind and mech - install signal towers and hack the electricity to get online
 - Guns. Explosives. Industrial lasers. Enemy weapons are obtained by killing the opponent (acting as a temporary upgrade to augment your firepower).
 - Custom soundtrack
 - Mech in Mech: the player can pilots multiple combat rigs – including enemy rigs
 - 2+ hours story-driven game play, 12 levels before the release of the full first episode
 - Discover the truth about humanity's future exile from Earth...

The year is 2281 and piloting military grade mechs is the only way back to Earth, 80 years after a Global War for resources forced decent society to the edge of Earth's atmosphere.

Ethan is an engineer from the United Global Remnant: the very last survivors of the human race. Space is safe, but rumours of aliens, terrorists and a meteorite finally conscript Ethan away from humanity's last orbital home, the UGR Astralis space colony.

He must pilot a series of increasingly advanced Tactical Frames alongside the UGR at their base in Manchester, UK. With mind control, there's no death. But the only way to get health back is by absorbing energy spawned by fallen foes, you to fight to survive. Once a frame is destroyed, a new one is dropped in from orbit allowing you to get straight back into the fight.

TO LEARN THE TRUTH, YOU MUST GO BEYOND FLESH AND BLOOD.

Stand your ground fearlessly. Your enemies are human, machine, alien – and unknown. And anything else we can all come up with as a community!

Venture Beyond anything you've ever known - break rank and rules.

Join the UGR. Believe the impossibly dark secrets of a 23rd century Earth gone rogue...

Title: Beyond Flesh and Blood

Could of been a good game if they could place the peices in the corect starting location.. Great DLC. Soban is a very unique faction, and my personal favorite from the lore. Their units look and sound awesome, and offer a more tech focused playstyle over the Coalition. All for less than the cost of a sandwich. If you play this game, its a must buy.. The Brazil theme is perfectly respected :) Colored and funny i love it ! ;). I highly recommend this game. Very fun and easy to pickup. However, whilst progressing at higher speeds I've noticed that some patterns of the multipliers just make it literally impossible to get all of them, thus losing your whole multiplier (you will only be affected by this if you're pushing for top 3).

If anyone who made this game sees this I'd be happy to record some gameplay and point out which patterns I think need to be changed OR you could maybe make missing one multiplier more forgiving, for example, instead of losing the whole multiplier, just cut the multiplier in half from say 50 to 25 instead of just straight to 0.. Nice game, beautiful and easy. Good to relax after work. 75/100

PS Developer is actively responding to player requests and already tuned game balance.. Very glitchy and underwhelming.. Great game!

But can someone help me? I'm at the part when i need to get the washcloths from everybodys froom so Ic is can smell them. But for some reason the maid duties are broken or something. all the washcloths despawned and I restarted the game and everything I can think of. I need those wash cloths!!

Please someone help me!!!!. [Yes! Yes! Yes! Oh my God.....](#)

Heroes of Hellas 3 is primarily a tile-matching game on a hex grid, with a chain-drawing mechanic. It's not wildly innovative, but it's solid, well-made casual fun for those who like the match-3 style, but want something a little bit different from the standard match-3 gameplay.

The game is padded out with a few scenes of city-building and hidden objects. These scenes are fluff, add nothing, and should be ignored, but they can usually be dispensed with quickly, so they don't detract too much. The writing (in English at least) is somewhat clumsy, but you aren't really playing this for the story; you're playing for the actual tile-matching levels, and those are quite satisfying, if not particularly challenging.. Everything about this DLC is good, Other than the God forsaken "For whom the bell tolls" event. Literally one of the worst events out there and even though i've never actually had a campaign ruined by it, I still think it's poorly done, Since your characters personal combat skill, martial, and other combat related traits don't affect the "Not today" response to the event. Really tired of being the greatest duelist in the entire game but still only getting a 20% chance of winning the fight.. So in Industry Manager I started off as a small time Software company specialising in Social Networking. After I created my version of Facebook, I took the company global and began making a tidy profit. With the funds I created my own Anti-virus brand and created a sole corporate monopoly in the computer security sector.

With Business Booming I branched into the games industry. Focussing on both PC & Console gaming, the demand for great games was high. I couldn't keep up with consumer demand. Being the only games developer on the planet I built numerous software studios and hired an incredible amount of staff. Even though products in Industry Manager are faceless and you have no control over specifics, I must have developed a game called 'No Man's Pie'... It must have gotten a lot of hype, as I reduced the quality and content of this game in development to squeeze more cash out of mindless consumers. Sales exploded! Then I crashed the video games market, because my company must have lied about everything in the game.

Now bleeding as much cash in what I can only presume was lawsuits, I sold everything. Narrowly escaping bankruptcy by only a few thousand... Not to be defeated, I changed direction and moved into the food industry. Using my experience by lying in the gaming industry, my first product was Organic Milk. Created from a whole range of Genetically Modified ingredients.. My skin was saved! I went on to push my competitors out of business and poisoned the populace for financial gain by becoming Monsanto!

10/10 - Would imitate real life evil corporations again!. only played 20 mins so far... already amazing. waited up all night for the game to come out. i am not dissapointed.. Pretty nice actually :)
